

A close-up photograph of a rifle, likely a precision rifle, resting on a dark, textured surface. The rifle features a black scope with "VORTEX" branding on the side. The stock is wrapped in a camouflage pattern. A hand is visible at the bottom, holding the rifle. The background is a wooden surface.

DURASIGHT®

The New Standard for Strength in Scope Rings & Bases

DuraSight's Z2 Alloy® scope mount is the strongest base available for your CVA® rifle and scope. DuraSight® Z2 Alloy® Rings provide 50 percent more strength than conventional aluminum rings, but are priced about the same. All screws are Grade 8 Torx®, ensuring secure scope retention and a Torx® wrench is included.

\$37

Base/Ring Systems

This base/ring system is the fastest way to mount optics on your CVA® rifle, and has fewer parts that can come loose to affect your accuracy.

One Piece

DS409B - Low (Black) Up to 40mm objective
